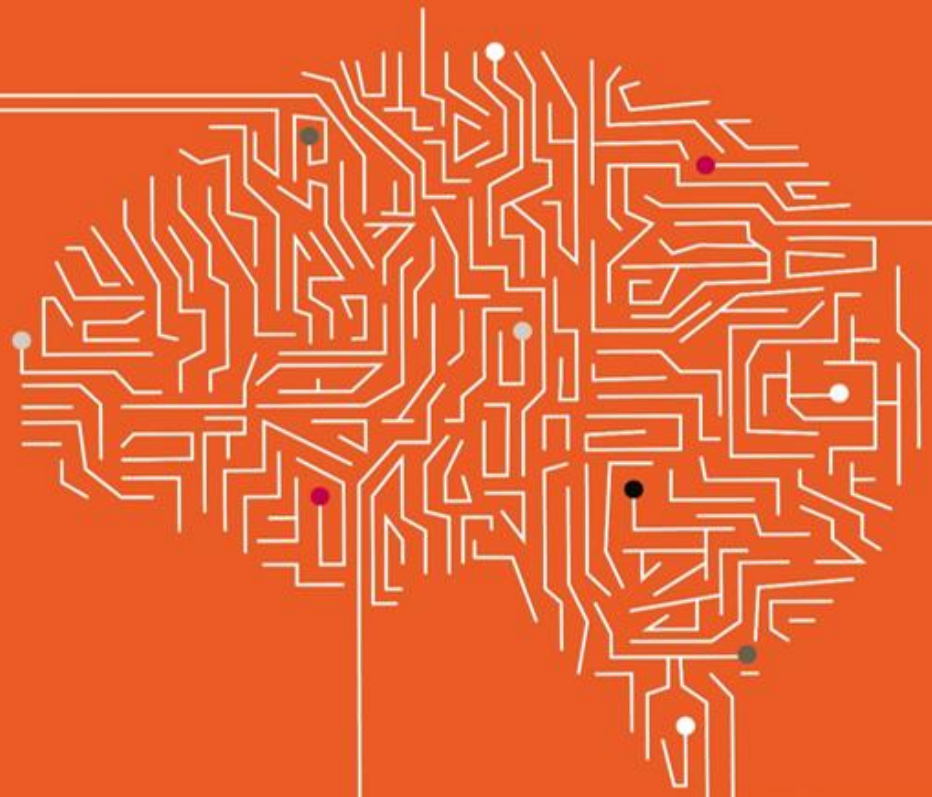
SOGETI CONFERENCE 2016

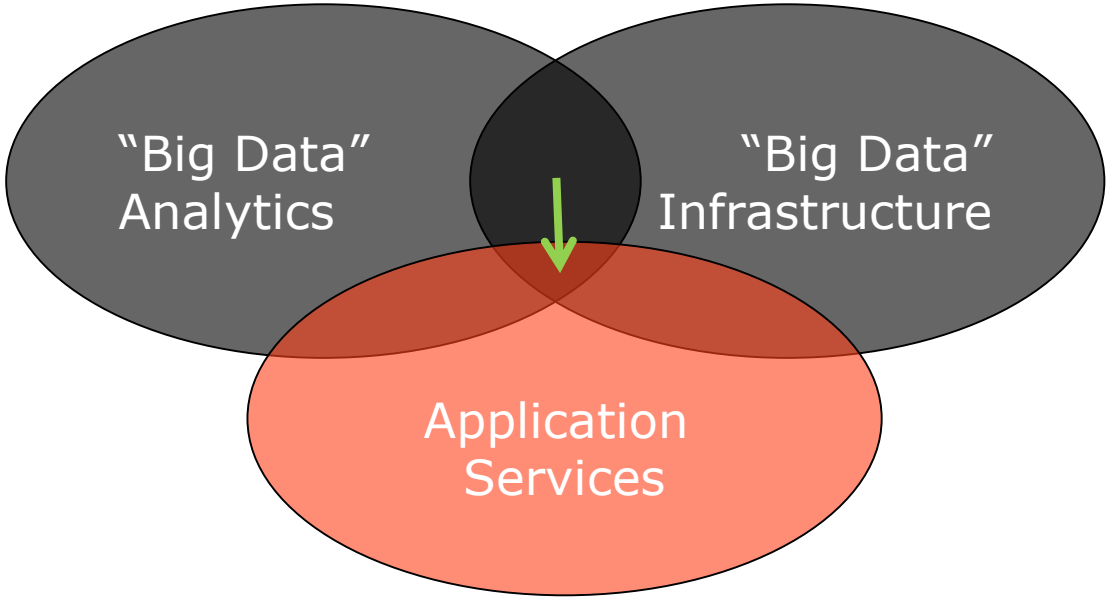
THE FUTURE OF MACHINE INTELLIGENCE



SOGETI + INNOVATION = SOGETILABS

Piet Olivier
Innovation Officer
SogetiLabs

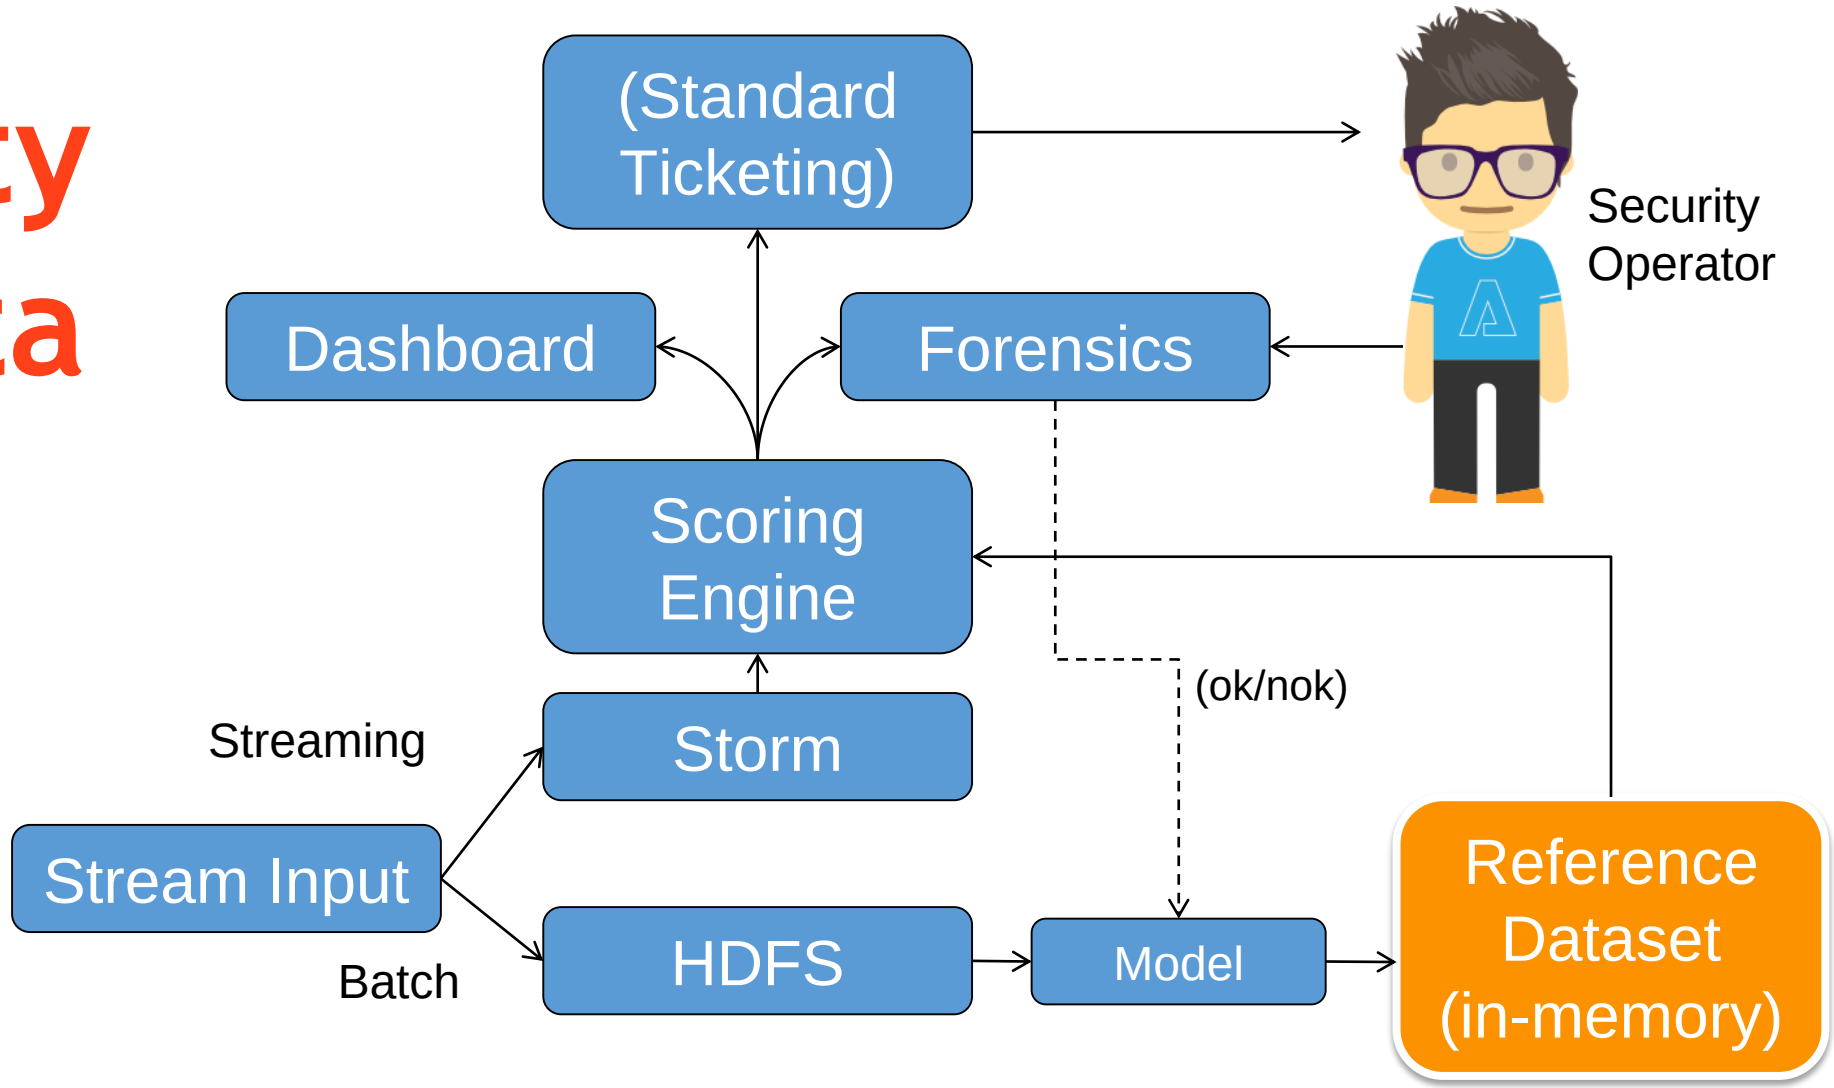
- Sogeti invests in INNOVATION
  - Innoviris – Brussels Region
  - Security Big Data project in Nov 2015
  - New “Flex4Apps” in Sep 2016*



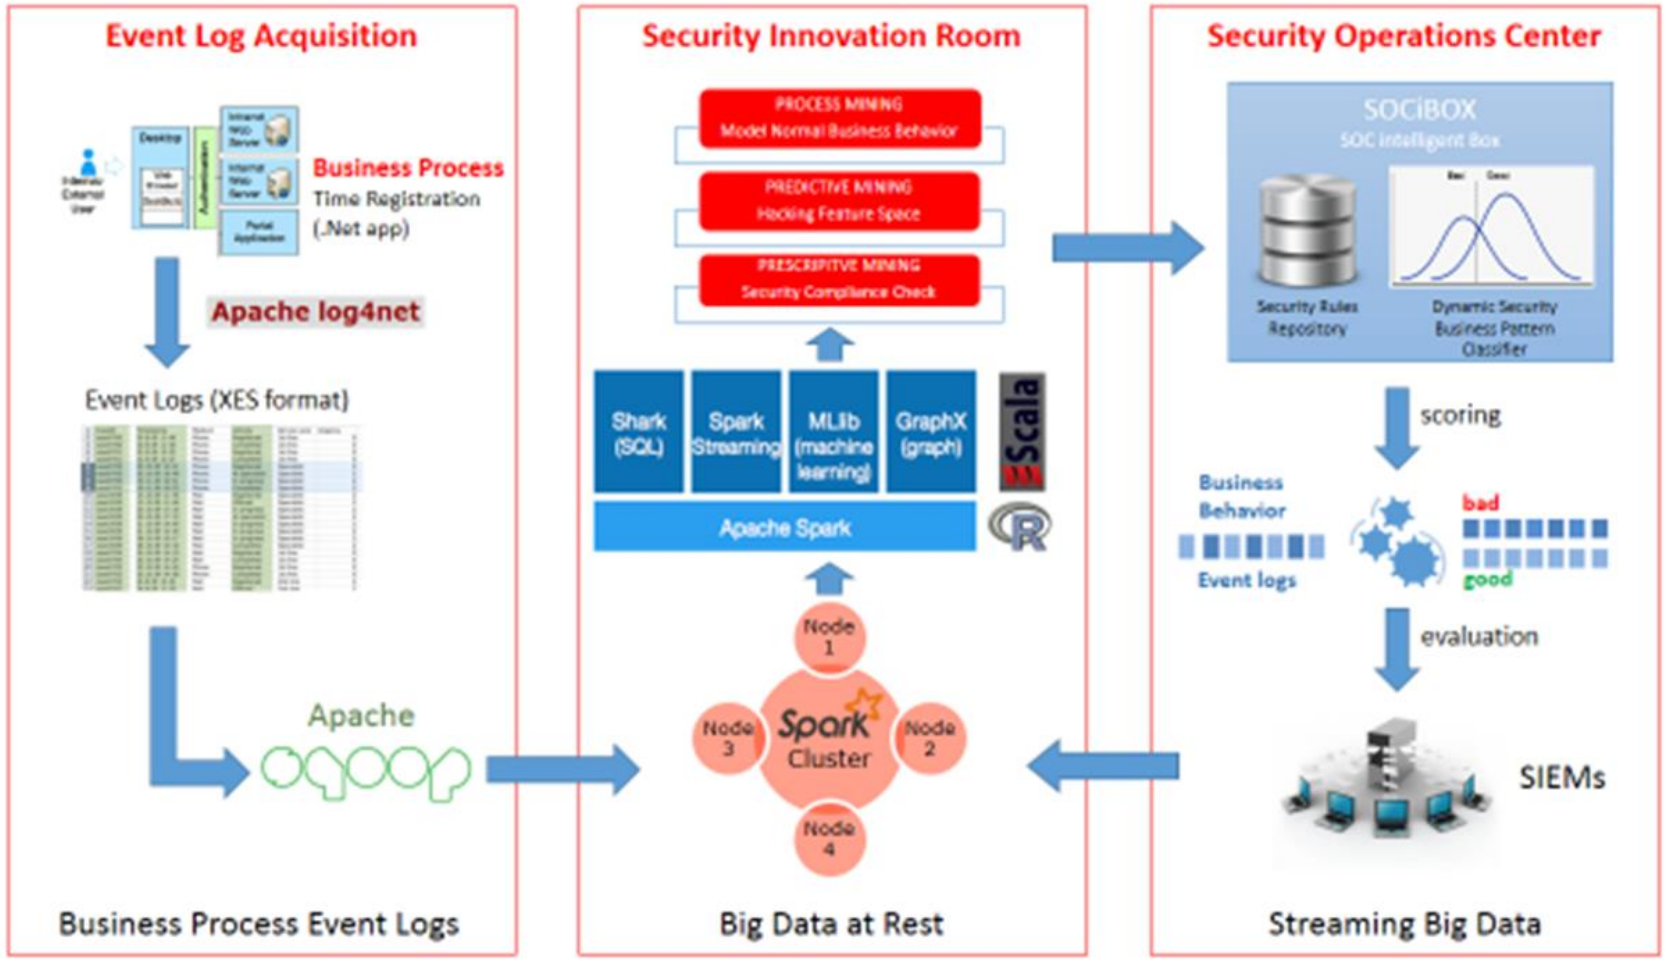
- SogetiLabs Innovation EXCHANGE

* due diligence in progress on 9/6/2016

Security Big Data



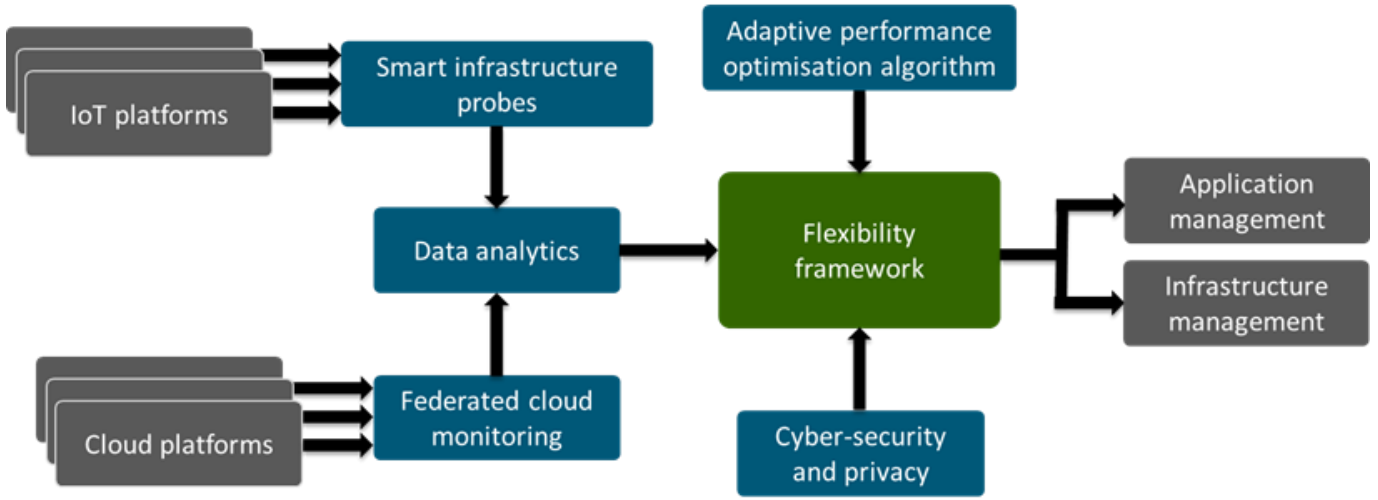
Under The Hood



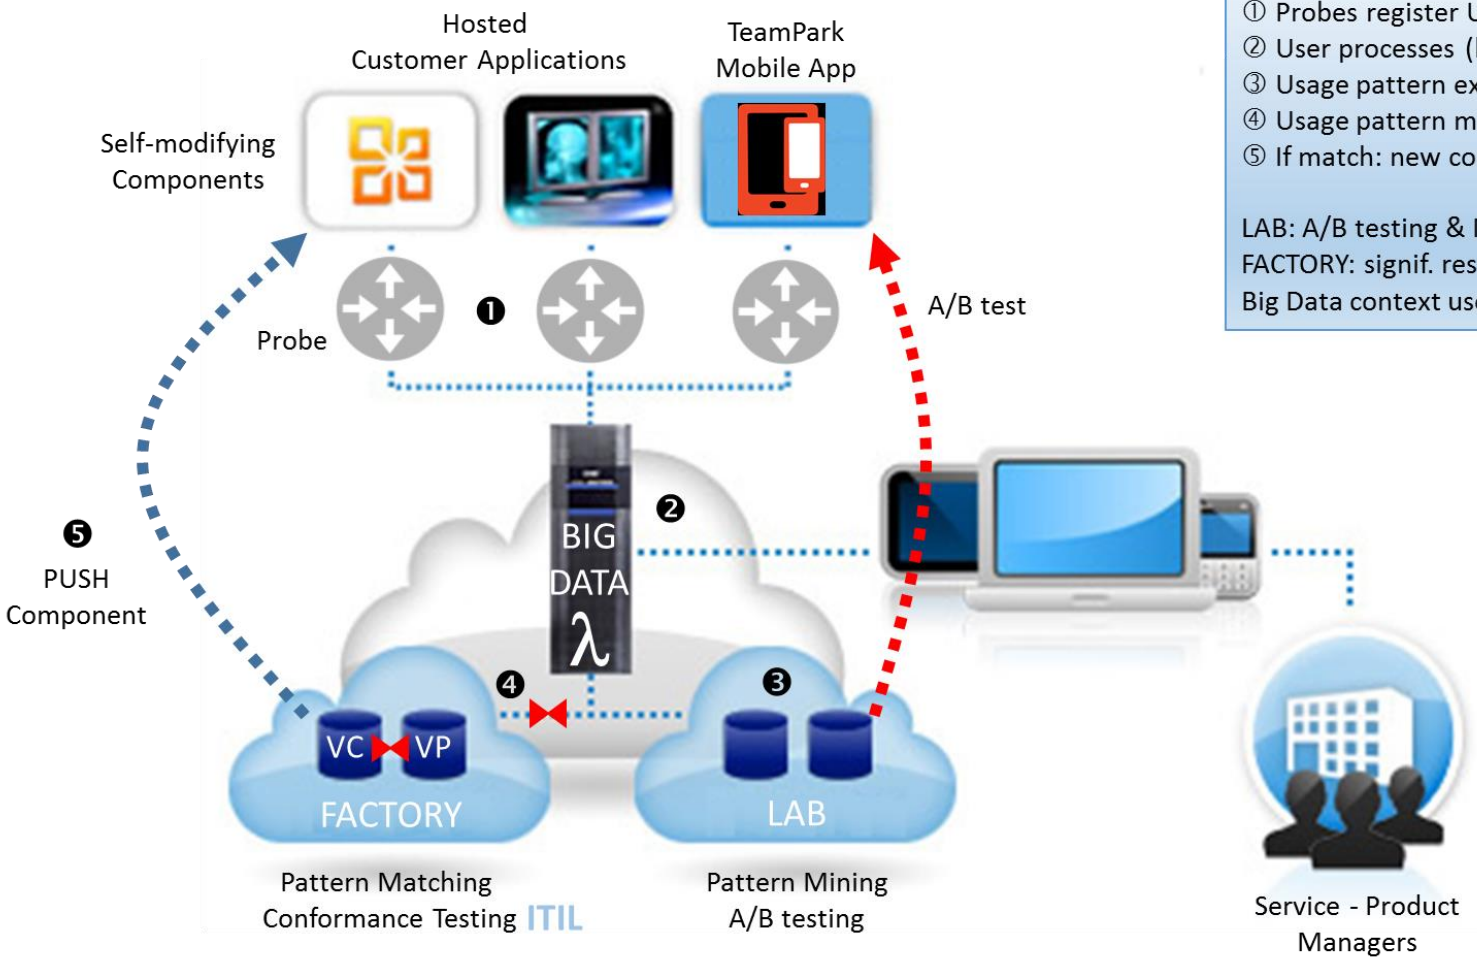
Flex4 Apps

Drivers:

- Blending of application and infrastructure (DevOps)
- Evolution from app monitoring to integrated application management
- Large scale



Under The Hood



Flex4Apps - Use Case

① Probes register User Process on customer App
② User processes (logs) stored in Big Data Cloud.
③ Usage pattern extract using Process Mining
④ Usage pattern match w. valorisation patterns.
⑤ If match: new comp. push to customer app.

LAB: A/B testing & Mine Big Data Cloud (TST/ACC).
FACTORY: signif. results published to factory (PRO).
Big Data context uses Lambda (λ) architecture
